

M B J A C O

MB JACO

“MB JACO” is a sofa with simple lines that satisfies all requirements of modern design and comfort. Its upholstered backrest can be rotated to increase the depth of the seat. The cover is completely removable and washable. By simply rotating the back, without removing any cushions, “MB JACO” converts into a conventional comfortable bed with a 78.74” long mattress suitable for everyday use. There are nine different mattresses to choose from – from standard latex foam to box spring with memory foam topping. “MB JACO” is also available as a fixed sofa that can be completely dismantled for easy delivery.
